OUR BULK CARGO SERVICES

MORE THAN JUST A WAREHOUSE

Our portfolio covers the entire service chain for granulated, pulverised and powdered raw materials, components and products. We take over all product handling for customers from the food and non-food sectors, which encompasses transportation and storage as well as sieving, removing metal particles and transferring goods.

Food and feed

We strive to provide exactly the right services you need. The food and non-food sectors are kept separate systematically and handled in line with their different requirements, always to the highest standards of quality and safety. For example, we have a dedicated storage area for food and feed with a permanent **hygiene lock** in front of our debagging line for contamination-free transfers.

Our value-added services:

- Incoming and outgoing goods
- Transferring bagged goods, big bags and octabins
- Transferring to silo trucks
- Sieving
- Metal particle removal
- Palletising
- Labelling
- Inventory
- Sampling
- Sample dispatch

OUR GENERAL CARGO SERVICES

WAREHOUSING OPTIONS FOR ALL SIZES

Our Rheinmünster site has a cutting-edge, clean and dry warehouse for your general cargo. We handle all sizes of pallets and even offer transfers to new pallets on request. We are also happy to provide storage options for oversized cargo, not to mention the right SAP interfaces for your systems.

Efficient picking

Our standardised processes mean that you profit from shorter delivery times and higher accuracy. We offer product handling and warehousing all under one roof to lower the cost of warehouse stops and error risks to you.

What's more, enjoy greater transparency with clear tracking and quality standards that facilitate your inventory control and verification processes.

RHEINMÜNSTER

- Year of construction: 2023
- Hall/logistics space: 6,600 m²

For seamless processes:

- Hall height: 17 m
- Pallet spaces: 15,500

- WGK 3

Safety equipment:

- Fire alarm system
- Sprinkler system
- Video surveillance
- Site security provided by the Chemical Park operator

OUR STRONG GROUP OF COMPANIES

CONNECTED BY QUALITY.

The GREIWING logistics group has constantly expanded over the years, allowing it to offer its customers a wide range of services and handle the entire value chain from start to finish. It has now developed into a strong group of companies.

The group operates in the chemicals, plastics, food, paint and lacquer, and construction industries at more than 20 sites in Germany and at one site in Belgium.

Over 1,250 employees generate an annual turnover of more than EUR 150 million. Services include conventional and intermodal transports, in particular the handling and storage of food and non-food products and hazardous materials.

To ensure all goods are transported, stored and handled professional, the GREIWING logistics group has special equipment including autoclaves to sterilise herbs and spices, two Mobile Granule Clinics © for sorting plastic granules and suction vehicles for suctioning products.

The following companies belong to the group: GREIWING logistics for you GmbH, SEPARATION AG, KTV Speditionsgesellschaft mbH and GREIWING services for you GmbH. The group is constantly developing its expertise and its sites and is optimistic about the future.
