**LOGISTICS SOLUTIONS
FROM A SINGLE SOURCE**

Connected by quality.

PETROCHEMISTRY

SOPHISTICATED LOGISTICS SOLUTIONS FOR PETROCHEMICAL PLANTS

As owners of petrochemical plants, you need intelligent logistics concepts in order to supply European markets.

We are your ideal partner for this: we provide expert advice and develop solutions that optimise your global marketing

processes, handle the logistical implementation, and also take care of the handover of the entire plant.

SILOADMAXX®

SAFE MATERIAL TRANSPORT WITH SILOADMAXX®

Our partner Siloadmaxx® provides the link between the supplier and the warehouse, ensuring the safe transport of bulk goods in standard overseas shipping containers. The gentle pneumatic material handling system uses a closed conveying process, which prevents dust from being released into the environment – and the system can be individually adapted to existing interfaces.

ADVANTAGES OF THE SILOADMAXX®-SYSTEM

- Mobile, solid and tested technology
- Dust-free and efficient loading
- Integration into existing logistics processes
- Prerequisite for reliable unloading, particularly of dusty, powdery or compacting materials
- ISO standard containers become transport containers for bulk goods in overseas shipping
- Savings on packaging materials and handling steps

siloadmaxX

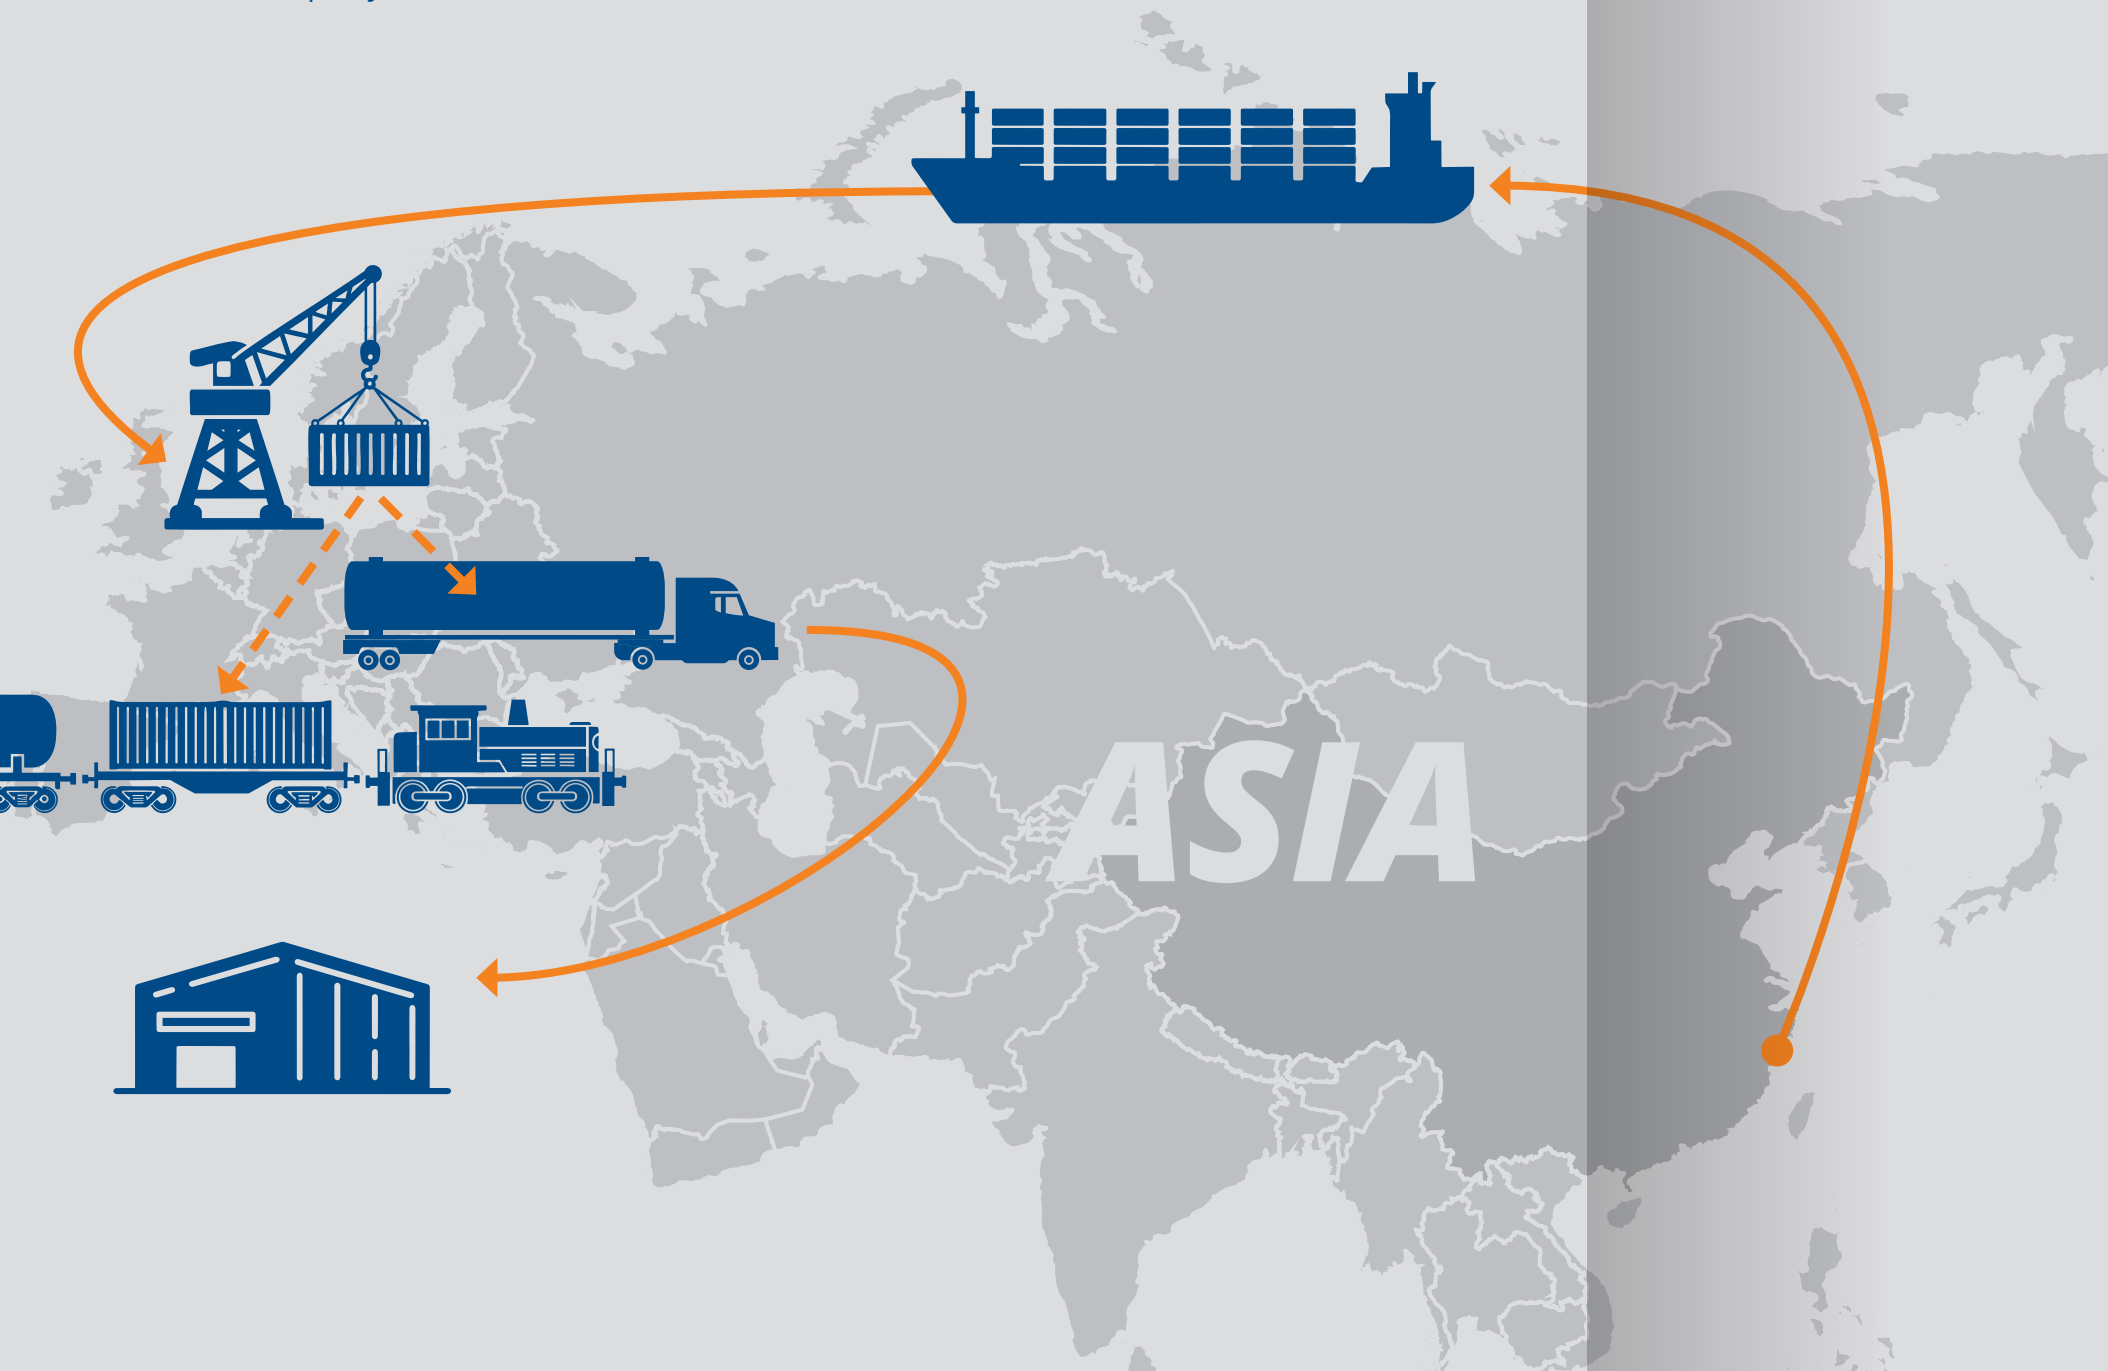

YOUR HANDLING CENTRE FOR EUROPE

With the ports of Hamburg and Duisburg forming parts of the New Silk Road, our location is a major advantage for you: from container transport by rail, through storage (and VAS if required), to onward distribution in Europe by silo truck.

With us as your partner, you can count on reliable processes and punctual transport, even over long distances.

Even large quantities of materials are no problem for us: thanks to our extensive load-

ing capacities, we enable you to increase your cargo volumes and thus reduce your transport rates and costs. Furthermore, we debag your goods exactly as your end customer requires them for production.

OUR SERVICES – YOUR BENEFITS

- **Avoidance of demurrage/detention:**
We collect the goods from the port as quickly as possible and reduce detention to a minimum.
- **Tower silo storage:**
By storing goods in a tower silo, you save on costs and packaging while also reducing your carbon footprint.
- **VAS:**
If required, we can provide the following value-added services for you:
 - *Debagging*
 - *Pallet warehousing*
 - *Transferring of bagged goods and big bags*
 - *Palletising*
 - *Inventory*
 - *Sampling*
 - *Sample dispatching*
 - *Transferring to silo trucks*
 - *Silo filling*
 - *Transport*
 - *Customs (import/export)*
- **Network of locations:**
With our locations, we offer ideal connections between overseas destinations and the ports of Hamburg and Duisburg.
- **Full-service provider:**
We are also happy to handle goods on a FAS/FOB basis at the port in China for you.

WE CONNECT ASIA WITH EUROPE

LOGISTICS SOLUTIONS FROM A SINGLE SOURCE *Connected by quality.*

The GREIWING logistics group has constantly expanded over the years, allowing it to offer its customers a wide range of services and handle the entire value chain from start to finish. It has now developed into a strong group of companies.

The group operates in the chemicals, plastics, food, paint and lacquer, and construction industries at more than 20 sites in Germany and at one site in Belgium.

Over 1,250 employees generate an annual turnover of more than EUR 150 million. Services include conventional and intermodal transports, in particular the handling and storage of food and non-food products and hazardous materials.

To ensure all goods are transported, stored and handled professionally, the GREIWING logistics group has special equipment including auto-claves to sterilise herbs and spices, two Mobile Granule Clinics © for sorting plastic granules and suction vehicles for suctioning products.

The following companies belong to the group: GREIWING logistics for you GmbH, SEPARATION AG, KTV Speditionsgesellschaft mbH and GREIWING services for you GmbH. The group is constantly developing its expertise and its sites and is optimistic about the future.
